

Stop Order

- An order to sell at a pre-determined stop price.
- Carries a trigger price but not a limit price.
- A sell or buy Stop Order is entered at a stop price below the current market price.
- Once the stock price drops to the stop price, the Stop Order to sell is triggered and becomes a market order to be executed at the market's prevailing price.

How to submit a Stop Order?

1. Go to 'Quote Screen' and select 'Order Pad'.

Trading Limit:

Account No.:

Order type displayed as "Stop"

Order status displayed as "Queued"

- The Stop Order remains inactive (not visible to the market and thus ineligible for matching) in the order book and only becomes active (eligible for matching) once the trigger price is reached (triggered).
- Once triggered, a Stop Order is converted to a market order.

Stop Limit Order

- An order to buy or sell at a specific limit price.
- Carries TWO prices, a trigger price and a limit price.
- Limit price must be less than trigger price and last done price.
- Once the trigger price is reached, the limit price becomes a limit order to buy or sell at the specified price.

How to submit a Stop Limit Order?

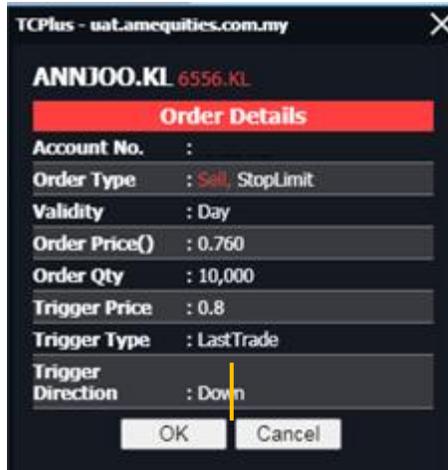

1. Go to 'Quote Screen' and select 'Order Pad'.

The screenshot shows the 'Order Pad' interface of a trading application. The top navigation bar includes icons for Quote, Watchlist, Stock Info, Chart, Buy, Sell, News, and Fund. Below this, a status bar displays 'BURSA' with a value of 0.000, a bar chart showing 136,900, a dollar amount of \$19,764, and a change of +40. The main interface has three tabs: 'Quote Screen', 'Order Pad' (selected), and 'Equities Portfolio'. The 'Order Pad' form includes the following fields:

- Trading Limit: [Empty text box]
- Account No.: [Empty text box]
- Stock: [Empty text box]
- Action: [Dropdown menu set to 'Sell']
- Order Type: [Dropdown menu set to 'StopLimit', highlighted with a yellow box]
- Trigger: [Dropdown menu set to 'LastTrade']
- Trigger Price: [Text box containing '0.8']
- Direction: [Dropdown menu set to 'Down']
- Disclosed: [Empty text box]
- Qtyx100: [Text box containing '100']
- Min Qty: [Empty text box]
- Price: [Text box containing '0.760']
- Sett. Curr.: [Empty text box]
- Validity: [Dropdown menu set to 'Day']
- Payment: [Empty text box]

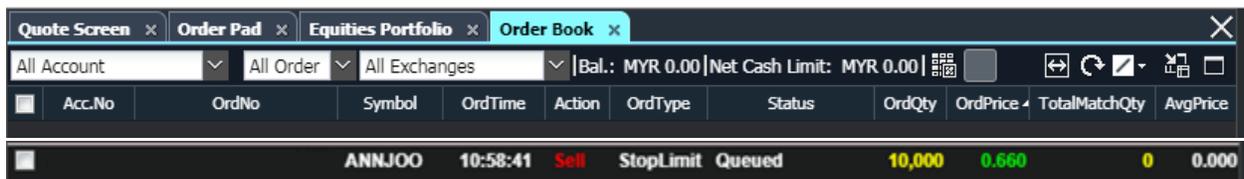

At the bottom, there is a checkbox for 'Skip Confirmation', a 'Pin' field with masked characters, and a save icon. Four orange callout boxes with yellow lines pointing to specific fields provide instructions:

- 'Select 'Sell' or 'Buy'' points to the Action dropdown.
- 'Enter price' points to the Price text box.
- 'Enter a trigger price' points to the Trigger Price text box.
- 'Select 'Stop Limit'' points to the Order Type dropdown.

An order details screen will pop once all of the selections are completed.

How to view Stop Limit Order book?

Order type displayed as 'Stop Limit'

Order status displayed as 'Queued'

- The Stop Limit Order remains inactive (not visible to the market and thus ineligible for matching) in the order book and only becomes active (eligible for matching) once the trigger price is reached (triggered).
- Once triggered, a Stop Limit Order is converted to a limit order with a limit price equivalent to the limit price specified by the Stop Limit Order.

Both Stop Order and Stop Limit Order shares below features: -

1. Trigger price to be set at \leq or \Rightarrow of bid, ask and last done price.
2. Can be used in combination with Day, Good Till Date and Good Till Cancel type validity.
3. Can be accepted by the trading engine during Pre-Opening, Main Trading, Pre-Closing and Trading-At-Last phases.
